

The '3E' AI Compass: Navigating AI in Education

Empowering schools with Ethical, Environmental, and Educational AI literacy.

ETHICS

Ethics: Safe and Responsible Use

Privacy First: Protect personal data; never share sensitive student info.

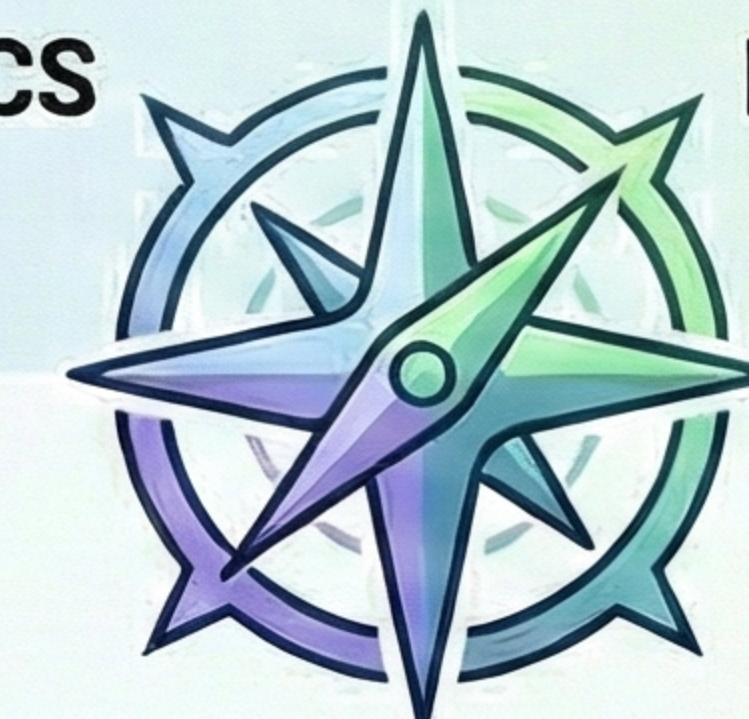

Age Appropriate: Follow EU guidelines (13+ recommended); parental consent.

Bias & Fairness: AI can be biased; always think critically and verify facts.

ENVIRONMENT

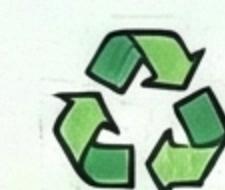

EDUCATION

Environment:
AI and Our Planet

The Carbon Footprint: Be mindful of the significant energy used to train models.

Solving Climate Challenges: Use AI for climate monitoring, recycling, and biodiversity.

Sustainable Tech: Brainstorm green solutions and promote sustainable practices.

Education:
Empowered Learning

Personalized Support: Adapt to different learning styles with targeted resources.

Teacher Productivity: Automate admin and lesson planning to free up mentoring time.

Inclusive Classrooms: Provide vital support for SEN students with adaptive tools.
